# Wondering about Arthritis in DOGS ?

## AREAS THAT A DOG MAY SUFFER FROM ARTHRITIS

**Prevention** is the key if your dog is a breed that has a disposition of developing arthritis, dysplasia, or other joint problems.

We recommend **not waiting** until the pain and suffering is visible, but rather starting your pet on a preventative dose early.

1-800-545-9940  
#petwonderproducts

# About Arthritis

Arthritis is a term used to explain all joint pain, disease, and damage caused by inflammation in joints.

Osteoarthritis and Rheumatoid arthritis are common chronic degenerative joint disorder in pets.

## Some common signs to look out for:

Limping,  
Less active than before,  
Not wanting to climb stairs,  
Not wanting to jump down,  
Lameness,  
More irritated,  
Muscle atrophy,  
Licking/biting specific areas

*Recommend products like Pet Wonder as a product that can help prevent arthritis or help alleviate the pain caused by arthritis.*

# Wondering about Arthritis in CATS ?

**Prevention** is the key if your dog is a breed that has a disposition of developing arthritis, dysplasia, or other joint problems.

We recommend **not waiting** until the pain and suffering is visible, but rather starting your pet on a preventative dose early.

# About our Company

**Pet Wonder® Products Ltd.** has been selling Pet Wonder products in Canada and the US for almost 20 years. The company has been under new ownership and management since 2016, and is located in the Vancouver area. The Company oversees all manufacturing locally, and does its own distribution and wholesale marketing.

*"I have 9-year old female pit bull who is suffering from arthritis as well as an old injury that flared up. We've only been able to handle 15 minute walks that usually ends in me dragging her at the end. She's been on Pet Wonder for 5 days now and we just got in from a walk in which she pulled me the whole way. I'm very impressed so far with (Pet Wonder). Thank you from myself and Molly." -Amy Franham, ON*

## ***Pet Wonder contains only three natural ingredients:***

- Glucosamine Sulfate (Shellfish)
  - Chondroitin Sulfate (Bovine)
  - Squalus Acanthias Cartilage
- 
- 90 capsule bottle
  - \$11.45/bottle + shipping and taxes
  - Minimum order of 12 bottles
  - Our suggested retail price is \$21.95
  - Ethically Sourced
  - Human Grade
  - Dosage by Weight
  - Date Stamped

# Instructions

## Dosage by Weight

- Give the appropriate amount of capsules/day according to the label on the bottle.
- Older, heavier or pets showing signs of arthritis may require a higher dose than younger pets.
- Monitor and modify dose as see fit.

## How to give Pet Wonder® to pets

- You can easily open the capsules and sprinkle the content on their food.
- You can either split the dose between the morning and night, or sprinkle the all the contents of the capsules in one meal.

<b>Dosing</b>	
<b>Animal Wt (lbs)</b>	<b>Dosage/day</b>
5-25	1-2 caps
25-50	2-4 caps
50-75	3-5 caps
75+	4-6 caps

# Zoo Wonder

- Same ingredients as Pet Wonder®
- \$86 per bottle + shipping and handling
- Our suggested retail price is \$135
- 500 grams per bottle
- Can be easily added to food
- Good for families with multiple pets and large animals

*"I have used Super Sea Horse (now Zoo Wonder) ... for decades on several elephants at various zoos. After 3 to 6 months of proper dosing, full results are seen, sometimes sooner. Our Natural Bridge Zoo elephant has been on the product for 8 years and we have seen an 80 percent improvement in its health. I would recommend this product to anyone who genuinely cares about their elephant, and we've even successfully used it on our elderly dogs, which are 12 and 18 years old respectively. Breeding programs should start their youngsters on it sooner than later, and not wait for pops and crackles. I highly recommend this product for all elephants."*

*-Mark Easley, Natural Bridge Zoo, August 2016*

## Pet Wonder or Zoo Wonder?

- Pet Wonder comes in capsules
- Zoo Wonder comes in powder
- Zoo Wonder = 10 bottles of Pet Wonder
- 1 teaspoon of Zoo Wonder = 6 capsules of Pet Wonder
- Zoo Wonder is a bulk product ideal for horses, elephants, and other large animals or groups of dogs

*Both supplements will:*

Increase Comfort  
Increase Mobility  
Increase Energy

# Which animals need Pet Wonder?

## Pets that have one or more of the following conditions:

- Have arthritis
- Have a lack of energy
- Are aging (*middle age+*)
- Are overweight or obese
- Are often inactive
- Are highly active (*ie. hiking, agility*)
- Had or currently have some form of injury
- Are a large breed
- Were born with genetic deformities (*such as dysplasia*)
- Are breeds which are known to have joint issues (*listed on next page*)

***Don't wait! Prevention is the key to your customer's pets good joint health!  
Start on Pet Wonder TODAY***

# Dog Breeds Prone to Arthritis

*Some dog breeds which are known to be especially prone to arthritis include:*

- Bernards
- Dachshunds
- German Shepherds
- Golden Retrievers
- Great Danes
- Labrador Retrievers
- Mastiffs
- Newfoundlands
- Old English Sheep Dogs
- Rottweilers
- other breeds, mixed or pure, that have an unusual body structure.

You should encourage your customers with dog breeds like the ones above to start taking products like Pet Wonder® as a way to prevent or slow down arthritis and **NATURALLY INCREASE ENERGY.**

# Information about Pet Wonder® and its Active Ingredients

## What are the ingredients of Pet Wonder and its sources?

- Capsule: Bovine (Cow)
- Glucosamine Sulfate : Shellfish
- Chondroitin Sulfate: Bovine
- Squalus Acanthias Cartilage
- Our ingredients are from USA and New Zealand

## Will I see immediate effects after my pet takes Pet Wonder?

You'll see results in your pets as early as 1-2 weeks, but some might see effects between 3-6 weeks.

## Which pets can take Pet Wonder?

Most vertebrates such as dogs, cats, horses, birds, and even large zoo animals, are known to be safe to take ingredients in Pet Wonder®. However it may not be appropriate to give Pet Wonder for some pets, especially vegetarian pets such as rabbits.

## Compared to other products, how much glucosamine and chondroitin sulfate are contained in Pet Wonder?

In each individual capsule, there is more concentrated glucosamine and chondroitin than other current glucosamine/chondroitin pet supplement brands. Depending on the weight of the pet, they may receive up to 3-4 times the amount of glucosamine from Pet Wonder. However, we cannot compare other supplements with glucosamine hydrochloride (HCL) because they are different forms of glucosamine.

---

## What is different about Pet Wonder compared to other Products containing glucosamine and chondroitin?

Pet Wonder, like many other natural supplements such as Recovery or Omega Alpha, address arthritic conditions. There are some key differences, however.

### Advantages of Pet Wonder over other products:

- Contains Squalus Acanthias
- Provides Noticeable Effects in Increased Energy
- Affordable price
- Human premium grade ingredients, including high cut glucosamine and chondroitin
- High levels of protein, mucopolysaccharides and natural chondroitin sulfate
- Powder capsule which is can be easily twisted opened
- Contains Glucosamine Sulfate, not Glucosamine Hydrochloride
- Not cooked or baked (*so does not affect efficacy*)

## Are there other health benefits of using Pet Wonder?

*Pet Wonder has been reported by our customers and researchers to have other health benefits including:*

- Noticeable increase in energy level
- Prevention of calcium oxalate crystals (kidney stones)
- Improvement, protection & repair of the digestive system (stomach, bladder, intestines)
- Reduction of inflammation
- Prevention of Inflammatory Bowel Disease (IBD) such as ulcerative colitis and leaky gut syndrome
- Assist with the rebuilding of tissues and stronger bones
- Reduction or elimination of bone cracking
- Softer and healthier fur, with less fur balls in cats
- Happier pets from pain reduction
- Happier pet owners

[www.petwonder.com](http://www.petwonder.com).***

# Comparison of common ingredients

## Glucosamine Sulfate and Chondroitin Sulfate contained in Pet Wonder

- A type of glucosamine which contains sulfur which helps cartilage repair and construction
- Has been shown in studies to be beneficial for joint health
- Studies have shown that in combination with glucosamine, chondroitin can improve symptoms of Osteoarthritis

## Glucosamine Hydrochloride (HCL)/ MSM (Methylsulphonylmethane)

- Glucosamine HCL does not contain sulfur.
- Studies have shown that it is less effective than glucosamine sulfate in improving joint health
- Research on glucosamine HCL by itself has stated it was not effective
- There has been little or no studies done on MSM or glucosamine HCL showing its effectiveness or safety in pets

## Product Forms Containing Glucosamine

	<b>Pet Wonder® (Capsule/Powder)</b>	<b>Liquid</b>	<b>Tablet</b>	<b>Cream</b>
<b>Pros</b>	<ul style="list-style-type: none"> <li>• Basic ingredients</li> <li>• Can easily be applied on food</li> <li>• Can show results in about 2-3 weeks</li> <li>• More affordable than other types</li> <li>• Consistent servings in capsule form</li> </ul>	<ul style="list-style-type: none"> <li>• Can easily apply on food</li> <li>• Some pets may enjoy the taste</li> <li>• Can be easily absorbed</li> </ul>	<ul style="list-style-type: none"> <li>• Consistent serving</li> </ul>	<ul style="list-style-type: none"> <li>• Easily applicable</li> <li>• No need to worry about pets having a hard time consuming the product</li> </ul>
<b>Cons</b>	<ul style="list-style-type: none"> <li>• Some pets may not like the taste</li> </ul>	<ul style="list-style-type: none"> <li>• Shorter shelf-life</li> <li>• Addition of additional flavorings, artificial sweeteners, and ingredients which may pose some health risks (Eg. Benzoic acid, Vegetable Glycerin)</li> <li>• Must be stored in refrigerator</li> <li>• Possible side effects such as dizziness</li> <li>• Some pets (especially cats) may not like the taste</li> </ul>	<ul style="list-style-type: none"> <li>• Not easily applicable on food</li> <li>• Hard to swallow</li> <li>• Pets may not like the taste</li> <li>• Not absorbed as effectively due to short digestive tract of dogs and cats</li> </ul>	<ul style="list-style-type: none"> <li>• Several studies has been shown ineffectiveness in aiding or preventing arthritic pain</li> <li>• Pets may lick off the cream, however non-toxic ingredients are often used</li> <li>• Can be costly</li> </ul>

# How to Buy our Products

## Contact us:

Call 1-800-545-9940

Email us at: [info@petwonder.com](mailto:info@petwonder.com)

**10% off first wholesale order**  
(taxes and shipping extra)

We accept Master Card, Visa, Paypal, Cheque, e-transfer  
30-day credit available.

# Wholesale Product Support

We provide posters, brochures, taste samples, counter display box free of charge to our store customers.

We post store listings on our website and promote your stores on Social Media (Instagram, facebook).

We recommend the closest store to customers if available.

We sell online for a higher price than in stores to promote buying Pet Wonder in stores.

We don't sell to big box retailers such as Costco or Walmart.

# Testimonials

*“Just one Wonderful Product to order!”*

My 16 year old mini poodle, had a lot weakness in his hind legs and was getting harder for him to get up after sleeping. After being on Pet Wonder for just over 6 weeks, I saw a huge improvement with his mobility. I now have my other 3 poodles on Pet Wonder for prevention.

*- D. Willms, Vancouver BC Agility Trainer*

I love your product and want to help you sell lots. It's been a miracle product with my dog and many customers. It's something special that I feel should be told to the world.

*- TLC Grooming Ottawa*

# Testimonials

I want to comment on how well Pet Wonder has helped my 10 year old tuxedo cat Billy who had a "click" in his right front leg due to arthritis. This was diagnosed by my vet last spring. A friend suggested that I try a product that she has used for her elderly dog who had been suffering from a lack of mobility due to arthritis. Apparently after a few months on Pet Wonder, her dog was able to jump up onto the bed once again. Billy , my cat, after being on Pet Wonder for three months has lost his 'click'. I'm very pleased with these results. I mix one capsule into his canned food each morning. Cats are noted for not liking anything added to their food, but apparently this product has no unpleasant taste.

*- Carol Liggett Victoria, BC. Canada*

*Ask your customers to submit a picture of their pet so that we can help promote your stores.*
